Gary – We can provide the visual props suggested below for EPA’s use at the meeting, but we do not plan to formally participate in the meeting. Please let me know what we can provide, or do, to help you prepare for the meeting.

Thanks,
David

Subject: San Jacinto 5/25/16 Open House

David,

Can you let me know if the PRPs will be participating in the 5/25/16 meeting on San Jacinto? If so, you could include the geotextile & geomembrane samples, the 3d armor cap block, posters, etc.

Thanks,

Gary Miller
